

CORPORATE

Hotels Combined
Chippendale, NSW

Project Name: Hotels Combined
Client: Renascent
Designer: Hot Black
Location: Chippendale NSW

Scope of Work: Wall Paneling, Column Cladding, Meeting Room Joinery, Refreshments Bench, Bar Joinery, Banquette Seating, Breakout Area, Collaboration Touchdown, Booth Seating, Planters, Collaboration Benches.

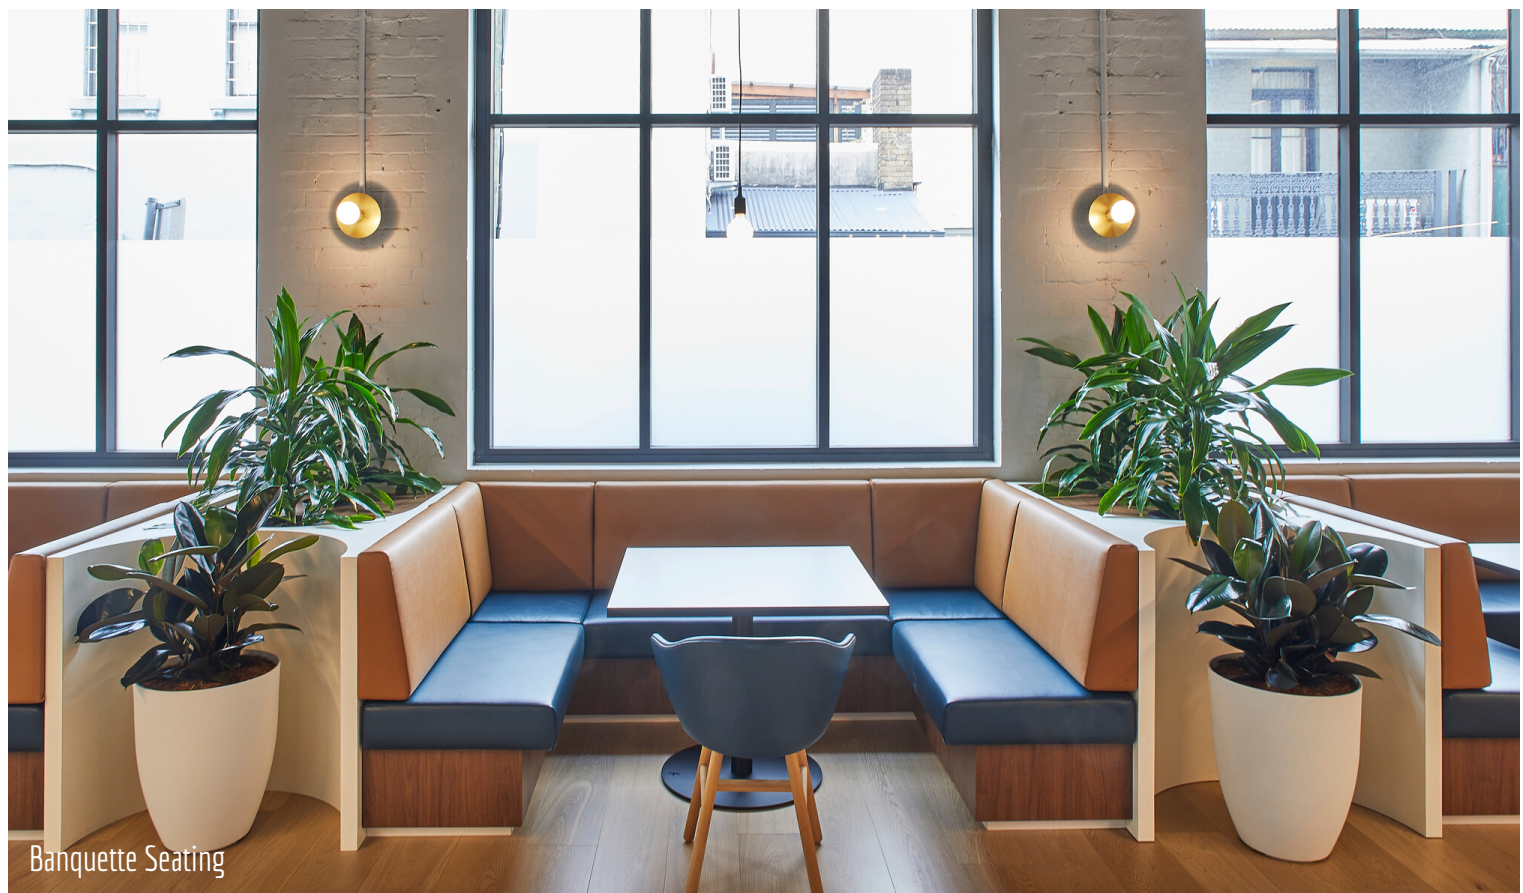

Overview: Aspen worked with Renascent and Hot Black Architects to complete the office fitout for Hotels Combined in Sydney CBD. Being an accommodation booking platform, Hotels Combined key focus included quiet working spaces along with multiple meeting rooms and breakout spaces allowing employees and visitors to collaborate. With an abundance of natural light, established plants and neutral tones throughout, this space feels both modern, yet familiar, and effectively brings the outside in to create an inviting place to work. Some of the joinery items manufactured and installed by Aspen included extensive Wall Panelling, a range of Banquette Seating throughout the breakout zones, Planters, and Collaboration Benches.
